

# CHÂTEAU Phélan Ségur

## Vintage 2012

**Harvest :** From 8 October to 19 October 2012

**Climatic conditions :**

Flowering: Uneven. Following a late bud break, flowering was spread over June

Start of ripening: Spread over August

Flower abortion: Low and variable depending on plot and varietal

Deleafing: Removal of leaves and thinning of bunches adapted to the water stress for each plot

The dramatic change in the weather at the end of September meant that great care was required.

Our capacity to harvest quickly (12 days) enabled us to work calmly and stay in control.

**Grape varieties :** 50% Cabernet Sauvignon, 50% Merlot

**Tasting notes :**

Colour Intense, deep red with hints of purple

Nose Lovely harmony, aromas of red fruit highlighted with floral notes

Palate Soft and voluptuous attack

A structured wine with good volume and fleshy tannins

Finish Precise, long, and flavourful
